

Updated June 10, 2020

As we all deal with the daily challenges of the novel coronavirus (COVID-19), we at Victory Housing want to assure you that our highest priority is that we continue to provide a safe and healthy environment for our residents, employees and the communities we serve.

At each Victory Housing community and our corporate office, we have implemented preventative and precautionary measures against COVID-19 based on Federal, state and local guidance as well as the specific industry best practices for assisted living, independent senior living, multi-family apartment and office workplace, as appropriate. With these measures, we seek to reduce the potential impact of COVID-19 and to keep our residents and employees as safe as possible.

We continue to monitor Federal, state and local data and recommendations and will implement additional changes as necessary. In addition, using information resources and guidance from state and local government health departments, agencies and trade associations, we will continue to educate and inform ourselves, our residents and our employees about COVID-19 and its impacts.

As a reminder to our resident and family members in our assisted living communities, we continue to limit visitation access, authorizing only **essential** visitation per CDC guidelines. We know this is difficult for all, but our first priority is to keep all residents safe and our communities COVID-free.

If you would like to assist our residents and staff members who have experienced financial distress during this health emergency, we welcome your contributions to our Heartship Fund. <https://www.givedirect.org/donate/?cid=1189>

We will keep you updated as circumstances change. Questions about this notice or specific communities should be directed to info@victoryhousing.org.

Thank you for your continued support.

With gratitude,

Victory Housing, Inc.
